

Template Week 7 – Host your website on GitHub

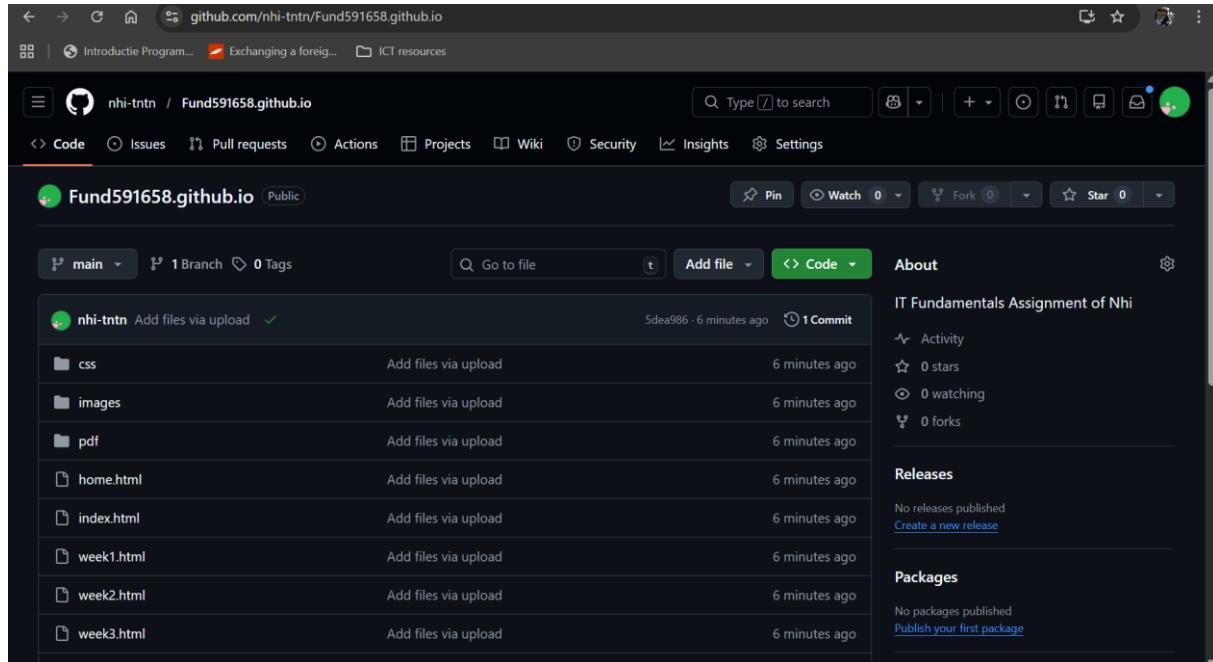

Student number: 591658

Domain name (URL) of your website on GitHub:

<https://nhi-ttnn.github.io/Fund591658.github.io/>

Relevant screenshots + motivation:

Github repository

The screenshot shows a GitHub repository page for the user 'nhi-ttnn' with the repository name 'Fund591658.github.io'. The repository is public and contains one branch ('main') and no tags. The commit history shows a single commit from '5de4986' made 6 minutes ago, which added files via upload. The repository structure includes folders for 'css', 'images', and 'pdf', and files for 'home.html', 'index.html', 'week1.html', 'week2.html', and 'week3.html'. On the right side of the page, there is an 'About' section with the title 'IT Fundamentals Assignment of NHi'. It shows activity metrics: 0 stars, 0 watching, and 0 forks. There are also sections for 'Releases' (no releases published) and 'Packages' (no packages published).

My hobby

I love reading historical fictions and watching their movie adaption

My favorite author is Jane Austen. She wrote books about society of landed gentry of Regency England. It is fascinating to see how much the age people live influences their world view.

The historical period I am currently interested in is Late Bronze Age. I look forward to The Odyssey movie coming out in the summer of 2026.
